**WHITE-LABEL PROGRAM**

Abbas, your white-label platform is paid for. Let us set it up.

You are invited to run **Actionist** on AIWA: your own AI app-building platform, under your brand, with your customers paying you directly. Your program (\$297 once, for good) is already paid for.

Three things make it live, all in your console:

- 1 Connect your Stripe, so your customers pay you directly.
- 2 Set the prices you want to charge for Solo and Agency.
- 3 Point your domain at your platform.

Credits are the one thing you buy from us, at \$0.10 each. You set what your customers pay, and the difference is yours.

Sign in with this email address and your console opens.

Set up Actionist

If the button does not work, paste this link into your browser:

Questions? Just reply, it reaches me directly.

Leon, AIWA

AIWA turns a plain-English prompt into a working full-stack app.
